

**Resale values for charitable donations** - This is merely a guideline to assist you, the donor, in determining values for your own items. You must take into consideration the quality and condition of your items when determining a value. **A new federal law passed in August of 2006 requires that all items be in good condition to qualify for a tax deduction.** These are estimates from Goodwill Industries...you can also find estimates from the Salvation Army: <http://www.satruck.org/donation-value-guide>

#### Home Appliances
